ER

Dear parents,

your child goes to a Kindertagesstätte (day care center)?

You want to guide and actively support your child with learning the German language and your family's language?

Participating with Rucksack KiTa at your Kindertagesstätte will give you great opportunities to do just that.

Rucksack KiTa...

- strengthens the relationship with your child by spending a lot of time together
- promotes the use of your family's language at home by providing multilingual material with a lot of creative and playful exercises
- promotes the use of the German language at the Kindertagesstätte with the help of the educational staff
- gives you the time and space to meet up with other parents and to exchange your experiences

Participation is free of charge!!!

This is how it works Rucksack KiTa:

As parents you go to the weekly Rucksack group meetings with the other parents. The Rucksack group meets for two hours. A qualified parents' guide (Elternbegleiter*in) provides these meetings which take place at the Kindertagesstätte.

At these Rucksack meetings, you'll receive multilingual exercise material to try and talk about. You'll get the time to ask questions regarding your child.

At home, you can do daily changing activities with your child. They should be done in your family's language, so that you can promote and support your child's multilingual skills. Siblings are invited to participate, too.

The educational team at the Kindertagesstätte takes up the Rucksack KiTa topics and, thus, promotes the development of the children's German speaking skills.

The Rucksack material

The Rucksack material consists of different topics for three weeks each.

Altogether, there are 12 topics, e.g. the body, clothing, KiTa, food and beverages, animals and so forth.

We offer them in 16 languages: German, Turkish, Russian, Arabic, Albanian, English, Polish, Spanish, Serbian, Croatian, Italian, French, Bulgarian, Farsi, Greek, Chechen.

There is some additional material for preschool children from the age of five, so the transition from Kindertagesstätte to elementary school is a given.
